EXCELLENCE AND INNOVATION IN PRECISION AIR CONDITIONING.

For 45 years MONTAIR has been the name of excellence in precision air conditioning in high technology environments: Cooling Systems for technical applications such as Server Rooms and Telecommunication Plants.

Montair trademark is in the network of **G.I. INDUSTRIAL HOLDING**, a Company of the multinational **G.I. HOLDING Group**, which offers a complete range of solutions for comfort and industrial cooling: air conditioning and air handling systems in commercial or industrial buildings, cooling systems for server rooms and industrial process.

G.I. INDUSTRIAL HOLDING has grown by the acquisition of historic Companies operating for decades in the different fields of air conditioning and industrial cooling.

In rapid international expansion, the Company now operates internationally with an extensive productive and sales network, with 4 European production plants and a network of 30 Sales Representatives in Italy and 70 Distributors in the World, coordinated by 3 Sales Offices.

In 2017 the G.I. HOLDING Group signed a Strategic Collaboration agreement with the multinational **FUJITSU GENERAL LIMITED**, for joint development of dedicated product ranges of residential and commercial air conditioners.

CLIMATIC CHAMBER

In Rivignano Teor (Italy), in addition to the production plant for large Liquid Chillers, is located the newly born Climatic Chamber that allows the Company to perform witness tests in the presence of the Customer to prove the perfect functionality and performance of its Units under a huge variety of operating conditions.

This allows a wide array of tests that can be carried out from -20°C to +50°C outdoor air temperature.
